

DISCOVERY

Man spends billions of dollars exploring space and discovering new worlds, but there is one discovery that evades him. It is the discovery of happiness on his own planet!

We believe happiness can only be found in Jesus Christ. This realisation does not always come at once. We need *time* to consider His life and teaching, and the remarkable events surrounding His death.

The same applies when we buy something. Many people want *time* to look before they spend. They want time to think about it.

Our "Finding Out Course" is just that. It's a chance to look and discover more about Jesus Christ, who He is and what He taught, before making a commitment. No matter how much or how little you know about Jesus, this course will increase your appreciation of this remarkable Person.
